

**FOR IMMEDIATE RELEASE**

## **Timetoast.com launches new timeline web application**

---

LONDON, England - April 22, 2008 - Timetoast, the new web-based timeline creation application, launches it's service to the public today.

Timetoast.com is a web application that allows people to create interactive timelines, which they can share anywhere on the web. Anyone can join and start creating and sharing their own timelines, all they need is a valid email address. It's also completely free.

Timetoast.com was built on top of powerful open-source frameworks and technologies such as Ruby on Rails, MySQL and Adobe Flex.

Please visit the new site at <http://www.timetoast.com>

Additionally, you can find a small media pack at <http://www.timetoast.com/press>
